OUR AGENDA

- Overview
- Team members & Responsibilities
- Challenges and solutions
- Future enhancement
- Project demo

OVERVIEW

This Angular-based project is a digital bookstore platform. Users can browse and view detailed information about books, as well as download them. Admins have access to manage the library by adding, viewing, and removing books. The application features a clean UI and efficient CRUD operations for book management.

TEAM MEMBERS

BADAL RATHORE

I handled the backend aspects of the Book Details page, including implementing book download functionality, managing data display from the backend, and collecting user feedback. I also conducted in-depth research to gather and structure the required book data

INDRAJEET KHATRI

Responsible for Admin portal that consists Admin dashboard where admin has access to all books and can also remove the book from library and also a feature of adding a new book into the library

BHAVYA PATEL

Responsible for allowing users to see all books at once or category wise and also responsible for Registration and Login, Logout (session) functionalities, project and database setup.

TEAM MEMBERS

MAYANK GOYAL

I was responsible for developing the user-facing Detail Page of the Book Store app, enabling users to view book information, submit ratings, and post comments. My work focused on implementing dynamic data display, rating functionality, and comment posting features.

AESHA SHAH

On User Book service i have worked on so setup UI for the home Page and also fetch the all books on home page from the database also do work on routing and admin registration form design.

CHALLENGES AND SOLUTIONS

NAVIGATION WITHIN PAGES

Used Router-Model to easily map routes with the pages to easily navigate

DYNAMIC NATURE OF ADD BOOK FORM

User ReactiveFormsModules to handle complex form behaviour seamlessly

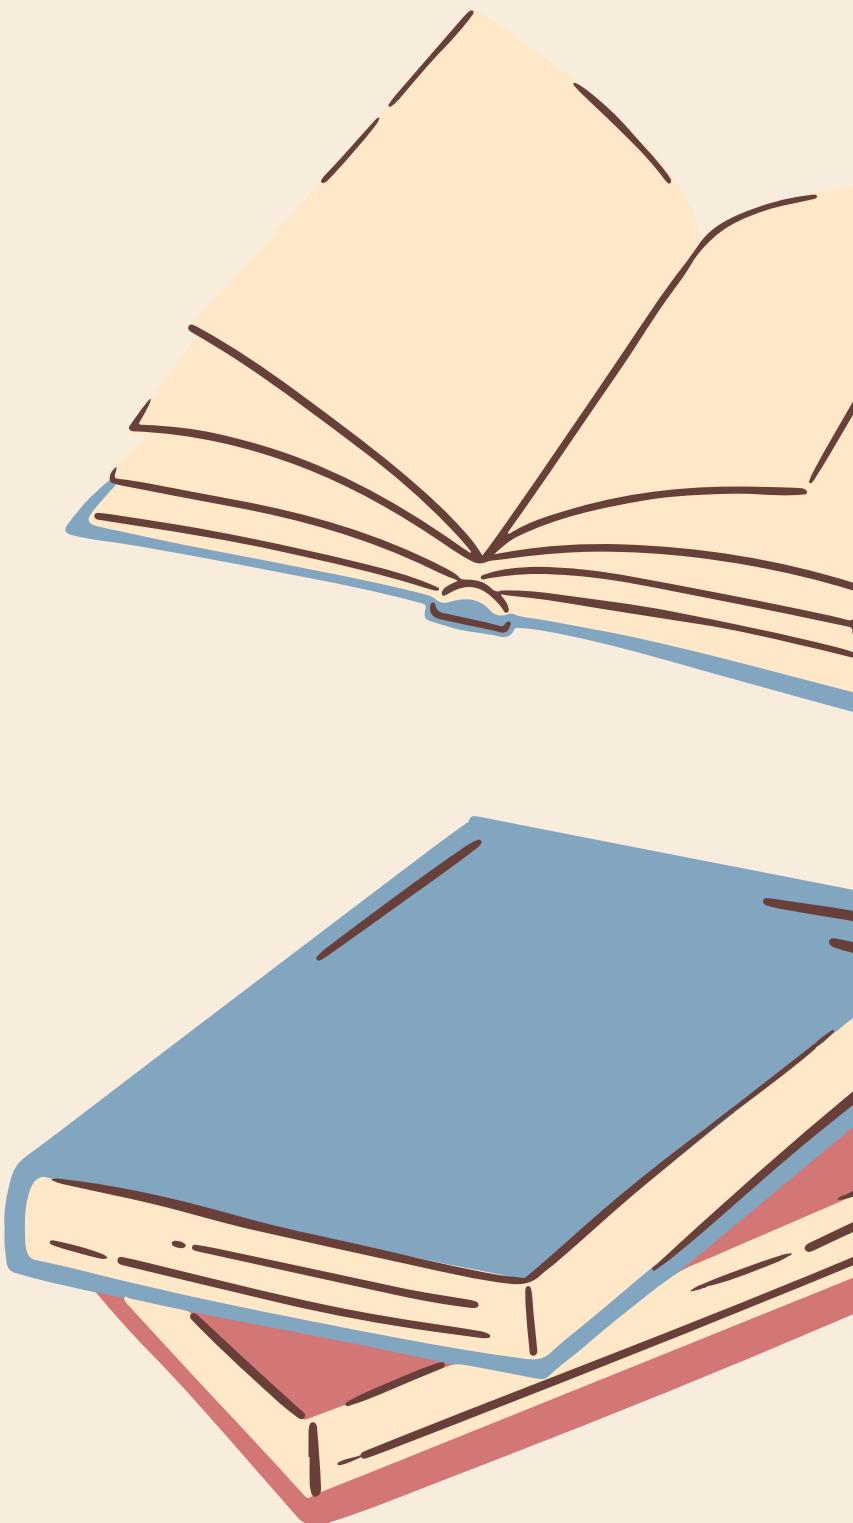

DOWNLOAD FUNCTIONALITY

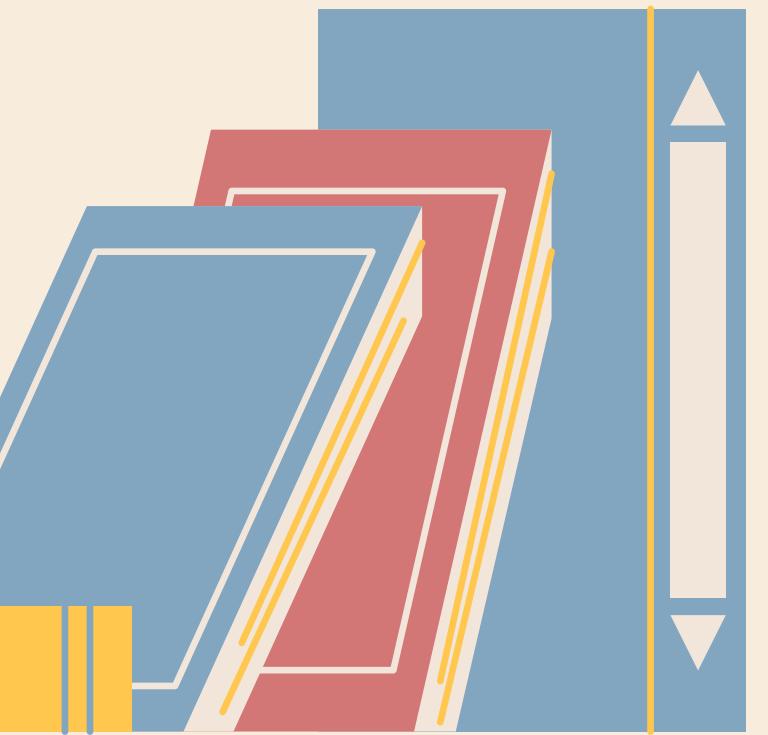

We decided not to store the books in our database and load it. Instead, we used the existing book download functionalities and integrated them with our code to achieve optimal performance

FUTURE ENHANCEMENTS

- Refere and gift book to other users
- Reading Groups
- More meaningful catagories and sort functionalities
- Subscription/Rent model for going commercial

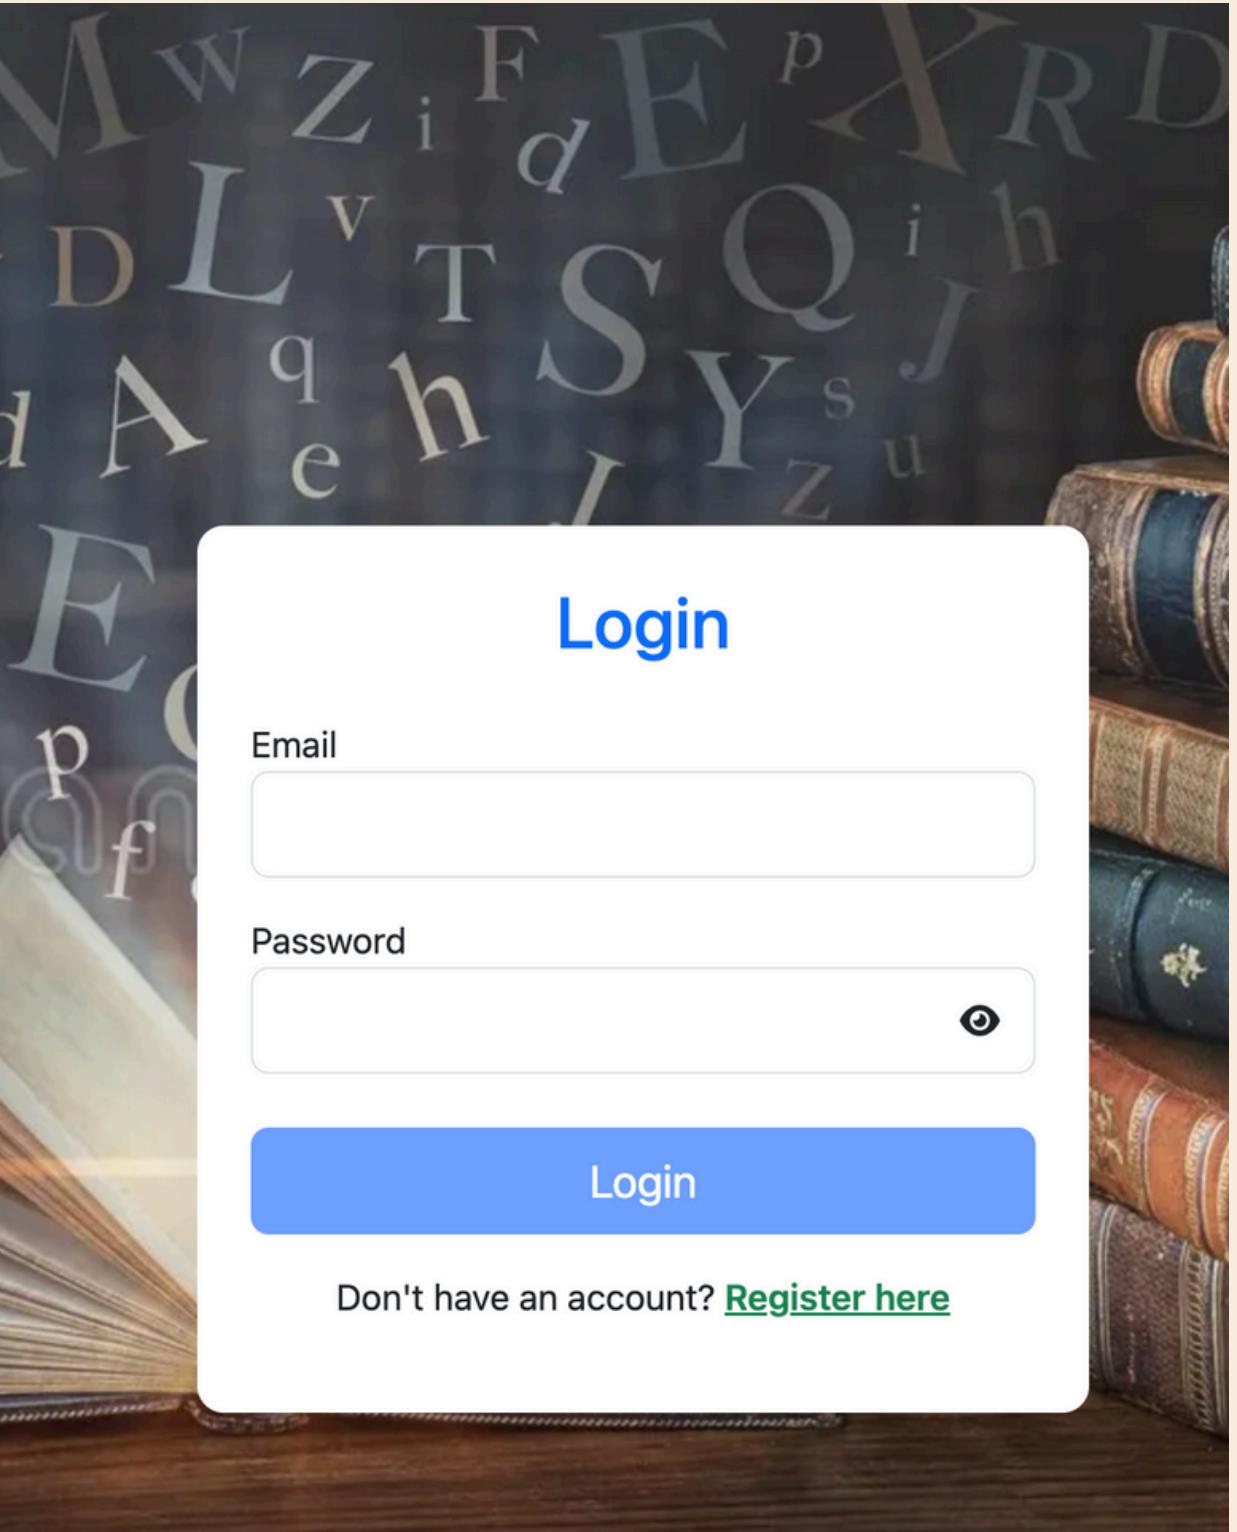

NOW LET'S SEE WHAT BOOKLOKA LOOKS LIKE
